## OFFICE ACTION

### *Allowable Subject Matter*

Claims 21-32 are allowed. Following is the reason for allowance:

The closest art, US 2003/0034251 to *Chikarmane et al*, teaches forming an oxide passivation layer 18 on a seed layer 17 [Fig. 1d], then removing the passivation layer prior to placing the substrate in an electroplating solution [¶ 0035]. However, *Chikarmane et al* does not disclose “placing the substrate and the thin layer of oxide in the electroplating solution.”

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
